Eye TEST.

At a glance point out the spot which comes nearest to the central part of the circle. If you have an accurate and quick calculating eye you may do it.

Of the "five senses" we depend more on the eyes both as a means of pleasure and business than any of the others. Yet the other four are more carefully watched and protected. Don't you think it would be wise economy to have your eyes looked after before they get in worse condition? The adage "A stitch in time saves nine" applies here with force.

PERFECT
SODA WATER

Daintiness marks the making and serving of our soda water. Satisfaction and refreshment follows the drinking. Fairly good soda is not hard to find, but absolutely perfect soda is a rarity. We serve perfect soda because we have the fountain; the experience, the skill and do not hesitate to spend money to make our soda best. We look after the cleanliness as carefully as though we had to do all the drinking ourselves. To drink our soda is to go out glad.

Total daily rainfall	0	

Accumulated deficiency in temperature since January 1, 12 degrees.

Accumulated excess in rainfall since January 1, 19.56 inches.

L. N. JESUNOFSKY,
Section Director.

WOODMEN'S CIRCLE—There will be a meeting of the Woodmen's circle tonight, a chief feature of which will be the initiation of a new member.

GONE EAST—Mrs. Max Stein and daughter Edith left last night for Chicago. Mr. Stein will leave soon after the fourth of July and join them there when they will go together to New York for the purchase of next winter's stock for their suit and cloak house.

STILL FORGING AHEAD—Another letter was received here on Saturday from the Caravan which at the time of writing had safely reached Beatty, Nev. There was still a remaining stretch of desert between them and the gold fields but there is every reason to believe the travelers will get there all right sometime.

EXONERATED—H. C. Hitchcock was tried last week in Globe on the charge of embezzlement. Mr. Hitchcock was formerly county treasurer and it was alleged after an examination of his books that a large sum of money had been illegally diverted from the county treasury. Mr. Hitchcock thereupon made good the amount of his alleged shortage and was then placed on trial on the criminal charge. The jury promptly returned a verdict of not guilty.

THE LAGUNA DAM—Sometime ago announcement was made of the bids submitted for the construction of the Laguna dam on the Colorado river above Yuma. It is now learned that the successful bidder was J. G. White & Co. and the contract has been officially awarded to that firm. It has thirty days in which to begin operations and ninety days in which to be in full operation. Advertisement has also been made for bids on the construction of twelve miles of levee along the river bank.

GOOD MINING PROPERTY—Preparations are making for a resumption of work on the Abolition group of mines at Cochrane station on the P. & E. railroad ten miles this side of Kelvin. The property is owned by John S. Cochrane, postmaster at Cochrane, A. L. Jones of this city and Frank Harvey of Kelvin. The property consists of six full claims and is crossed by the railroad track, the Gila river being within a few yards of it also. Mr. Cochrane has lived in that vicinity a long time and is the original locator of the ground. The property is developed but little, nevertheless sufficient work has been done to show the most promising indications. There is one tunnel in about 100 feet and another about 150 feet. Assays show the ore to carry all the way from two to forty per cent copper, several dollars in gold and in places considerable silver values. There are two large iron capped dikes between which most of the development work has been done. One of the dikes, which is in all probability an ore body has a cropping of fifteen feet and though it has not been cut at depth there is every reason to believe it is the indication of a large mine. Mr. Jones, one of the partners, will leave in a day or so for a visit of two or three months at his former home in McNe and if the opportunity presents itself he may do a little "mining business" while he is gone. Mr. Jones also has another group of claims across the river from the Cochrane group which he thinks is also worth spending a little money on and may prove to be as big as anybody's mine.

ABLE TO BE OUT—Readers of The Republican will remember a story that appeared in these columns on May 26, detailing the circumstances of the supposed fatal crushing of H. A. Guyer between a freight car and the platform or chute at the Santa Fe stock

yards. It will be remembered that he was dragged some distance and when brought to the sheriff's office he looked like a hamburger steak, being bruised all over, badly hurt in the back and his right arm all broken in pieces. The physicians said he only had one chance in a thousand to recover and that wasn't a very good one but he told them that he proposed to make use of that chance. His humorous remarks in which he scoffed at the seriousness of his condition were met with the admonition that he had better be preparing for a graceful dissolution. To that he rejoined that he had a lot of things to do yet and dying was the last one he had on the list. He was carted away to the county hospital in great pain but wonderfully pleased to think he was not dead. Yesterday he came to town and appeared at The Republican office to get a copy of the paper giving the details of his fatal injury. His right arm is still in a sling and he navigates with the aid of a cane. He is also pretty sore in the hips and other places where the freight train scored from our side. But he still insists that the train did not make a touch down nor will it beat him to goal. He seems to have recovered from the internal injuries indicated and the external hurts are being patched up as fast as possible. If ever a man's nerve was all-availing it is that of Guyer for according to the best usage of all ethical practitioners he was scientifically killed.

ATTENTION SIR KNIGHTS.

Phoenix Commandery No. 3, K. T. will give a farewell reception this (Monday) evening to our eminent commander, the Rev. Lewis Halsey D. D. who is about to remove permanently from our midst. In taking a formal farewell of our beloved eminent commander, at this reception, many good things will be said, to strengthen our hope and predicting any firm faith and untiring us the more firmly in the bonds of "love which thinketh no evil," and thus will the pathway of each be made the brighter and our lives the nobler and happier.

He loses the sweetness
That life can impart.
Who locks up a treasure
Of wealth in his heart;
To reap a rich harvest
Of pain and regret
When too late he discovers
How great was his debt.

Sojourning sir knights are most cordially and courteously invited. Don't miss it. By order of the commandery, P. A. SHAW, Recorder.

Smoke the Lukin cigar—made from pure tobacco—no adulteration.

Lost—An old fashioned gold breast-pin. Liberal reward for return to Hans Herlick.

Don't worry about what you will take to Iron Springs this season. We will have everything there in the edible line at the right prices. I solicit your patronage. E. E. Patton.

Any person employing either Charley or Barney Bond is notified that I am their legally appointed guardian and all wages must be paid me. Reuben Hill.
